NATIONAL SILVER PARTY.

A Committee Appointed—A National Convention to be Held at St. Louis—A Ringing Platform.

The Silver Conference at Washington unanimously adopted the declaration of principles reported by Senator Jones of Nevada, Chairman of the Committee on Resolutions. It was enthusiastically applauded, and when read by the Senator the delegates arose to their feet, cheered loudly for Jones, who spoke about ten minutes, his remarks being vociferously applauded.

THE RESOLUTIONS.

The paramount issue at this time in the United States is undeniably the money question. It is between the gold standard, gold bonds and bank currency on one side and the bimetallic standard, no bonds and Government currency on the other.

On this issue we declare ourselves to be in favor of a distinctive American financial system. We are unalterably opposed to the single gold standard and demand the immediate return to the constitutional standard of gold and silver by the restoration by this Government, independently of any foreign power, of the unrestricted coinage of both gold and silver into standard money at the ratio of 16 to 1, and upon terms of exact equality as they existed prior to 1873; the silver coin to be a full legal tender, and with gold for all debts and public and private.

We hold that the power to control and regulate our currency is inseparable from the power to coin money; and hence that all currency intended to circulate as money should be issued and its volume controlled by the general Government only, and should be legal tender.

We are unalterably opposed to the issue by the United States of interest-bearing bonds in time of peace, and we denounce as a blunder, worse than a crime, the recent Treasury policy of plunging the country in debt by hundreds of millions of dollars, in an attempt to maintain the gold standard by borrowing gold and we demand the payment of all such obligations as of the United States, as provided by existing laws, by either gold or silver coin at the option of the Government, and not at the option of the creditor.

Whereas, The demonetization of silver in 1873 enormously increased all the demand for gold, enhancing its purchasing power and lowering all prices measured by that standard; and,

Whereas, Since that unjust and indefensible act, the prices of American products have fallen upon an average of nearly 50 per cent, carrying down with them proportionately the money value of all other forms of property, except in peculiarly favored localities; and,

Whereas, Such fall of prices has destroyed the profits of legitimate industry, injuring the producer for the benefit of the non-producer, increasing the burden of the debtor and swelling the gains of the creditor, paralyzing the productive energies of the American people, relegating to idleness the numbers of willing workers, sending the shadows of despair into the home of the honest toiler, filling the land with tramps and paupers and building up colossal fortunes at the money centers; and,

Whereas, In the effort to maintain the gold standard the country has within the last eighteen months, in a time of profound peace and plenty, been loaded down with \$162,000,000 of additional interest-bearing debt, under such circumstances as to allow a syndicate of native and foreign bankers to realize a net profit of \$10,000,000 on a single deal; and,

Whereas, Another call is pending for further gold loan of \$100,000,000, which, but for an outburst of popular indignation, would also have been negotiated in the same secret manner and through the syndicate; and

Whereas, It stands confessed that the gold standard can only be upheld by so depleting our paper currency as to force the prices of our products below the European and even below the Asiatic level in order that we may sell in foreign markets, thus aggravating the very evils of which our people so bitterly complain, degrading American labor, and striking at the very foundation of our civilization itself; and,

Whereas, The advocates of the gold standard persistently claim that the real cause of our distress is over-production—that we have produced so much that it has made us poor—which implies that the true remedy is to close the factory, abandon the farm and throw a multitude of people out of employment—a doctrine that leaves us absolutely without hope for the future and.

Whereas, The difference of exchange between silver standard countries and gold countries is equivalent to a

bounty equal to the difference between the value of gold and silver in favor of the products of silver standard countries exported to gold standard countries, and a corresponding tariff against the products of gold standard countries exported to silver using countries; and,

Whereas, The cost of production otherwise in the old world, and particularly in China and Japan, is far less than the cost of which similar products can be produced or manufactured in this country by American labor without reducing our farmers, miners, mechanics, manufacturers and other industrial workers to the level of Chinese coolies; therefore be it

Resolved, That over and above all other questions of policy, we are in favor of restoring to the people of the United States the time-honored money of the Constitution—gold and silver—not one, but both, the money of Washington and Hamilton and Jefferson and Monroe and Jackson and Lincoln, to the end that the American people may receive honest pay for honest products, the American debtor pay his just obligations in an honest standard and not in a standard that is appreciated 100 per cent above the great staples of our country.

THE TAX ROLL CASE.

Argued Before Judge Mack Yesterday.

The case of S. P. Davis vs. the County of Ormsby came up yesterday morning before Judge Mack.

S. P. Davis, the plaintiff, sued for a balance of \$54 due on printing the tax list.

Plaintiff testified that he had printed the tax roll for the Sheriff and had stated to him that he would charge the legal rates, 20 cents a name.

Will U. Macfarley, tax man of the State Printing Office, testified that the rate of 20 cents was the usual rate for such work. He was corroborated by Saml. Fisher, McCarthy, Editor of the Enterprise, Editor Lemmon of the News, Paul Thompson and Will Taylor printers.

Sheriff Kinney could not recollect what any price had been named when the order was given, but plaintiff might have named 20 cents as legal rate subsequently and before he had signed the bill as a receipt.

All the witnesses for the plaintiff admitted that while they would charge the County full legal rates, as was the custom, they might charge private individuals less for the same kind of work, when no law governed them.

Commissioner Woodbury testified that he considered the legal rate too high and cut it down accordingly.

The case was then argued on the line that the tax roll bill of '91 empowering the Assessor to order the tax roll printed was the latest expression of the legislature on the subject and repeated the prior law which gave the power of handling all contracts to the Commissioners.

The case was conducted for the County by Torreyson and McGowan and All Chas. for the plaintiff.

The Court reserved its decision until it could consult authorities.

The case of Tom Braunan, charged with assault and battery on the person of Willie Clarke, was postponed yesterday afternoon until Monday.

CHEAP CUSTOM WORK A DECEPTION.

A style of tailoring is rapidly gaining headway which is but an imposition upon the consumer and a detriment to the workman. The cheap custom work or what is called "special order work," is a shrewd dodge for the purpose of deceiving the customer into the belief that he is obtaining custom work at ready made prices. The real worth of custom work lies in the exactness of the fit, and the thoroughness in which it is made. Cheap custom work is therefore inferior to ready made work.

Large concerns, some also engaged in ready made work have grown up of late and depend for patronage upon retail stores, and have numerous agents scattered everywhere soliciting orders and gain trade because of the strikingly cheap prices offered for goods made to order. As a rule these agents seldom obtain an order twice from the same person.

It is about time that this scheme was exposed to the people and ABE COHN of the EMPORIUM shows up the fraud. If you want clothes that fit and are tried on as often as is necessary call at the EMPORIUM Court House Building, Carson City, Nevada.
